WORK EXPERIENCE

Full Stack Developer Intern

Zversal Private LTD

01/2024 - Present

Mohali, Punjab

Achievements/Tasks

- I built a Dockerized PHP application on AWS EC2 instances during my internship to provide it with a more secure and optimal environment.
- Work on several WordPress websites and improve the codeflow by including features in this.
- working on lambda functions with AWS's serverless technology and verifying its API with Postman by providing JSON data.

Front End Developer

E-Karigar Technologies

07/2023 - 12/2023

Ambala cantt, Haryana

Achievements/Tasks

- I work on a number of client-side WordPress and CodeIgniter-based PHP (framework) projects at this time.
- During this, I use WordPress and Bootstrap to develop the sites' front ends in accordance with customer requirements.
- Utilizing a database to process queries in accordance with the backend data entry fields of websites.

SKILLS

PHP

Codeigniter

AWS

Docker

CI/CD

Git/Github

HTML

CSS

Javascript

C/C++

Bootstrap

PERSONAL PROJECTS

Banking Management System (10/2023 - 12/2023)

- I use PHP and a MySQL database to develop a banking management system with features like add accounts, logins, deposits, and withdrawals. I also include OTP verification to increase the system's security.
- The user can also fill out a query, which is saved in a database that only the admin can access, allowing the admin to read it and get in touch with the customer.
- The project is completely responsive, and I also make its docker images so that it can be managed with ease.

Codebash Tech (08/2023 - 09/2023)

- I use HTML, CSS, and JavaScript to construct a website that serves as a gateway to identify the best coding platform that provides statically generated information.
- It is good-looking responsive web design across all screen resolutions.

CERTIFICATES

Employment certificate (06/2023 - 12/2023)

Employment certificate from E-Karigar Technologies, where I worked for six months before learning and developing

C/C++ (10/2022 - 02/2023)

I gained a good comprehension of how C and C++ operate as well as an understanding of OOPS during this session.
