OBJECTIVE

Passionate and results-driven Full Stack Developer with strong expertise in both frontend and backend development. Skilled in building scalable web and mobile applications using modern technologies such as Node.js, Angular, and Ionic. Experienced in managing AWS infrastructure, including EC2, S3, and Lambda.

WORK EXPERIENCE

Fullstack Developer

E-Karigar Technologies | July 2024 – Present

- Developed scalable web and mobile applications using Node.js, MySQL, Python, and Ionic.
- Automated deployments and infrastructure using AWS (EC2, S3, Lambda) to ensure high availability and reliability.

Fullstack Developer Intern.

Zversal Pvt Ltd. | January 2024 – June 2024

- Built CI/CD pipelines using GitHub Actions and shell scripts, streamlining deployment workflows
- Managed scalable backend services on AWS EC2, enhancing system performance and ensuring secure access control

EDUCATION

B.Tech, Computer Science and Engineering

Seth Jai Prakash Mukand Lal Institute of Engineering & Technology, Yamunanagar | July 2021 – July 2024 (LEET)

Diploma, Computer Science and Engineering

Government Polytechnic, Ambala City | July 2018 – July 2021

PROJECTS

♦ Go Green Tech | Ionic + MERN Stack

- Built a Blinkit-style app for eco-friendly product delivery
- Implemented separate dashboards and role-based access for vendors, delivery partners, and customers
- Deployed using Docker on AWS EC2 with integrated CI/CD pipelines

♦ Sony Rewards MEA | React Native + Python

- Developed an admin dashboard for managing user rewards, point transactions, and redemptions
- Enabled real-time tracking of user activity and reward history
- Designed responsive interfaces for both mobile and desktop views
- Implemented secure backend APIs for reward handling and analytics
- Added role-based access control for administrators and users
