Diploma
Government Polytechnic Ambala city

06/2018 - 05/2021   *Ambala Cantt,Haryana*

Computer Science And Engineering.

- 66 % Overall Obtained Marks.

WORK EXPERIENCE

Full Stack Developer
E-karigar Technologies

06/2024 - 9   *Ambala Cantt*

Achievements/Tasks

- Experienced MERN Stack Developer with a strong background in building and deploying dynamic web applications. Skilled in creating RESTful APIs, integrating databases, and developing highly interactive front-end interfaces using React!
- Familiar with cloud deployment (AWS, Heroku, Netlify), version control with Git, and DevOps best practices!
- Designing and managing NoSQL databases, data modeling, and CRUD operations.
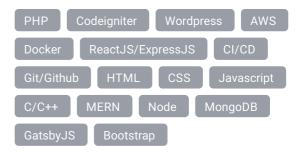

Full Stack Developer Intern
Zversal Private LTD

01/2024 - 06/2024   *Mohali,Punjab*

Achievements/Tasks

- I built a Dockerized PHP application on AWS EC2 instances during my internship to provide it with a more secure and optimal environment.
- Work on several WordPress websites and improve the codeflow by including features in this.
- working on lambda functions with AWS's serverless technology and verifying its API with Postman by providing JSON data.

SKILLS

PHP Codeigniter Wordpress AWS
Docker ReactJS/ExpressJS CI/CD
Git/Github HTML CSS Javascript
C/C++ MERN Node MongoDB
GatsbyJS Bootstrap

PERSONAL PROJECTS

Accounts Admin Portal (08/2024 - 08/2024)

- Developed an Account Admin Portal using Node.js, Express.js, React, and MongoDB. The portal includes features for managing project and client categories, generating invoices, and tracking billings!
- **Project Management:** Create, update, and organize projects with flexible categorization!
- **Client Management:** Maintain client records and categorize them efficiently!
- **Invoice Generation:** Automatically generate and customize invoices based on project and client!

Banking Managment System (10/2023 - 12/2023)

- I use PHP and a MySQL database to develop a banking management system with features like add accounts, logins, deposits, and withdrawals. I also include OTP verification to increase the system's security.
- The user can also fill out a query, which is saved in a database that only the admin can access, allowing the admin to read it and get in touch with the customer.
- The project is completely responsive, and I also make its docker images so that it can be managed with ease.

CERTIFICATES

Employment certificate (06/2023 - 12/2023)
Employment certificate from E-Karigar Technologies, where I worked for six months as front end developer.

Internship Certificate (01/2024 - 06/2024)
Employment certificate from Zversal private limited, where I worked for six months as full stack developer.

C/C++ (10/2022 - 02/2023)
I gained a good comprehension of how C and C++ operate as well as an understanding of OOPS during this session.
